NCAA Approved Softball Bat List

April 14, 2014

Team_____
Date_____ Time_____

Bat models listed herein are placed on the list by the manufacturer because the manufacturer believes them to be appropriate to the collegiate fastpitch game and in compliance with the batted ball exit speed standard of less than 98 mph.

Placement of bats on the NCAA Approved Softball Bat List does not guarantee, or otherwise mean, compliance with ASA/NCAA standards. Such placement is based on manufacturers' representations that they do so comply, and institutions take on the risk that bats may not so comply. Manufacturers are responsible for, and liable for any damages resulting from, any misrepresentations associated with the same.
